

Keep Fresh and Hydrated on even the Hottest, Driest Days!

Hydrated Skin is Healthy Skin - offering better sun protection, Restoring Youthful Volume to Skin and even Minimising Lines and Wrinkles!

Features

- HYDRATING Face & Body Mist is an Intensely Moisturising, oil-free NaPCA Spray Moisturiser with Hyaluronate and Soothing Botanical Ingredients that provides a Cooling, Refreshing Lift.
- One or two gentle mists lays down a veil of moisture-loving NaPCA that helps keep Skin Refreshed and Hydrated.
- In a handy 100ml spray bottle, so that you always have Natural Hydration when you need it!
- Safety-allergy tested
- Not tested on animals
- No parabens
- No phthalates
- Australian Made with Certified Organic Ingredients

How to Use

Hold approximately 20cm to 30cm from skin. Spray one or two mists on dry, sun damaged or dehydrated skin (face or body) as required. The better hydrated your skin becomes, the less often you will need to spray! Also provides effective relief from Sunburn, itchiness from eczema, psoriasis and heat rash! The ultra fine mist can also be used to set makeup or to hydrate you through your healthy water-based makeup!

Testimonials

"I am amazed by the "Magic" of this product! I broke out in a heat rash - large red and itchy marks on my arms so I sprayed HYDRATING Face and Body Mist on the area to see if the built-in anti-inflammatory ingredients might help. Just one hour later and the heat rash was all gone... AMAZING!!! " - Ivy

"I must say I am pretty impressed with the Purify Cleanser/Toner and Hydrating Spray Mist. I have really really sensitive skin and have tried many face products which claim to be 'for sensitive skin' only to have a severe reaction.

Kylie sent me a trial pack of the Purify Cleanser Toner & Hydrating Spray Mist. I have tried it for a week and extremely happy with the results - NO REACTION! My skin is not on fire, no redness on application, plus no cracked eyelid creases! (very painful)

Anyone that is super sensitive to face products I highly recommend to try the Regener8 products! No Harsh Chemicals Used." - Val

Before & After Photos

Frequently Asked Question

How often should I apply HYDRATING Face & Body Mist?

HYDRATING Face and Body Mist is gentle and safe to apply as often as you like. The formulation is intensely hydrating and contains anti-inflammatory ingredients.

Does HYDRATING Face & Body Mist have any special storage needs?

Like all organic based liquid skin care products, we recommend storing HYDRATING Face & Body Mist in a dark cool place while not being used.

Product Fact Sheet

HYDRATING Face & Body Mist Moisturiser

Product ID: R8HFBM

Key Ingredients / Materials

Hyaluronic Acid is recognised as the best ingredient to hold skin firming and softening moisture in the skin – one gram of Hyaluronic Acid can hold up to 6 litres of water!

Aloe Vera is highly moisturising and improves the elasticity of skin - making it smoother and more supple.

Licorice Root is a natural anti-inflammatory and also can help control excess pigmentation whilst it soothes dry sensitive skin

NaPCA is an effective humectant that allows the skin to absorb and retain high levels of moisture, that add volume, improve UV resistance and erase fine lines and wrinkles.

Full Ingredients

Demineralised Water, Organic Aloe Vera Gel, Glycerin, NaPCA, Hyaluronic Acid, Licorice Root Extract, PPG-5-Ceteth-20, Carbomer, Sodium Hydroxymethylglycinate, Ethylhexylglycerin, Sodium Hydroxide, Phenoxyethanol.
